And What Have You

By BOB CRAIG

It was our pleasure Tuesday to hear a part of the First Baptist Church Chapel Choir program to be presented here Sunday night and then the group will go on their tour to South Texas next weekend.

If you have not heard these youngsters sing we would recommend that you go hear them Sunday night. They do a tremendous job and at the same time seem to thoroughly enjoy singing.

While we are congratulating the Choir for doing such a fine job we would also commend Bill Keck for all of his efforts and time spent working with this group.

Every once in a while you see where someone is trying to get all holidays set on Monday and this year we are finding that we would be glad to go along with them on this.

Since July 4th falls on Tuesday this year and is the second holiday in a row to do so, we are ready to make a change. We find that it surely does interrupt getting out a paper the week of the holiday and makes it almost impossible to get the day off.

Because of the Tuesday holiday we are forced to move our deadlines up from Tuesday to Monday and this creates a problem for all concerned.

All of us Craigs spent this past weekend in Galveston attending the Texas Press Association Summer Convention. We stayed in the Flagship Hotel which is built out over the Gulf on the old Pleasure Pier and if you read the short bits in the Reader's Digest you will recognize this as being the one that had trouble with guests fishing from their rooms and breaking out the lower plate glass windows with their sinkers. It seems that the management solved the problem by removing the stickers from the mirrors that said no fishing from balcony.

At least they solved most of their problem because we did see one man trying his luck from his room while we were there.

Galveston is a nice place to hold a convention and a nice place to spend a vacation. The only problem with a convention at a place like that is that you do not seem to have enough time left to get in all of the sightseeing and swimming that you would like to. You can think of more reasons why you should go back and spend some more time — guess that is one more reason why cities vie for conventions.

One of the programs at the meeting was on the new Texas Driving Insurance Plan that will affect automobile insurance after August 1. The new plan while a penalty plan like we tried once before, solves many of the problems encountered in the system that we tried for three or four years.

The new plan eliminates the minor offenses that caused so much turmoil in the old plan and also allows one speeding ticket a year or two over a three year period before the penalties go into effect. Penalties are added for such offenses as DWI and hit and run and for accidents resulting in over \$50 damages where the driver is at fault.

One of the features of the plan is that all of the penalties paid in a rating territory are kept in that territory for the benefit of the safer drivers. The state is divided into 40 territories with Jones County being in number 26, called Western Counties.

The main argument for this part of the plan is that the better the law enforcement is in a territory the more the safe motorists will benefit.

It was pointed out to the publishers at the meeting that there will be those who will be quite vocal in their protest of the new plan because it will raise their rates, but it is hoped that the people who benefit from the plan will also support it in the legislature to keep it in effect. It was also pointed out that this is probably the only plan that will ever work to aid the better drivers.

Insects Damage Older Cotton

Bollweevils, Darkling Beetles, and webworms have begun to damage some of the older Jones County cotton, says Jones County Agent, Kirby Clayton. A routine check over the county by the agent last week found some of the overwintered weevils out of hibernation and feeding in the tops of some of the young cotton.

The agent recommends at least one early application of poison to wipe out the overwintered weevils and give the cotton a chance to fruit early. This application should be made when the cotton is about 4½ weeks old.

Clayton says he doubts the advisability of the second early season application since the cotton was planted late and a second application could trigger a bollworm build up.

MR. AND MRS. D. A. BROWN
... to be honored here Sunday

Fairview News...

by Mrs. Elmer Joiner
Everyone woke up this Monday morning to a beautiful, soothing sound, rain gently falling on the roof. So far it is still falling but this is West Texas, it could quit any time.

The crops are in such a crucial state, a big rain now could really make everything grow since little cotton and maize is just up and trying to live through the scorching days. You might say the farmers are on the fence and it could go either way. Here is hoping the Good Lord will take pity on us and send us the rain we have looked for so long.

After much planning the marker honoring the former Fairview Church has been put in place and finished. In my estimation it is one of the most beautiful things I have seen. Never will it be forgotten with the perfect picture of the church chiseled in the granite. The men that made it did such a perfect job that it is a thing of joy to all of us that loved our old church so dearly and had to bow to progress and see it go.

Dedication services will be held at the site of the monument next July 2, at 3 p.m. Rev. Doyle Combs of Andrews, and Rev. K. E. Woolley

of Benjamin, both former pastors, will have charge of the services. It may be a little hot and uncomfortable but you can stand an hour as a farewell gesture to a grand old church.

Mr. and Mrs. Fred Rosenbaum went last Saturday to Waco, where they attended the Downey reunion.

The Winslow Grays had all of their children home last weekend. Mr. and Mrs. Marvin Johnson, Bruce and Barry, Mr. and Mrs. Frank Lawrence, all of Amarillo, Mrs. Doyal Bills, Jana and Tonya from Houston. Mr. Bills came Friday and Sunday they went to Earth where his parents live.

Mr. E. C. Gray, Anson is very seriously ill in the Anson Hospital.

Several weeks ago Mr. E. A. Henry drove his car through a plate glass window in an office building next door to Pittards Drug Store in Anson, and came out of it without a scratch. It was the old story, foot on the gas instead of the brake. The car only had a ruined fender but after putting on a new fender on, it looked as good as ever. Mrs. Henry tried to blackmail him for her not to tell their boys, but she didn't have much luck.

MILKS THIS COW FOR 15 DAYS...

Many things have changed in rural areas but milking time still comes twice a day. But on dairy farms, this chore is now handled efficiently and economically with milking machines powered with electricity from MIDWEST ELECTRIC COOPERATIVE. In many modern dairy farms, the milk goes directly to the cooler which means fresher more wholesome milk on your table. In every field of rural endeavor, rural electrification has helped lighten the load, brighten the day and in many instances increase profits. The abundant supply of electric power furnished by the MIDWEST ELECTRIC COOPERATIVE is Helping Texas Grow.

Anson Fire Chief Expresses Thanks

Woodrow Simmons, Anson Fire Department chief, expressed appreciation Monday to Hamlin and Stamford groups in operations for the recovery of the body of Edward McGee, a Hamlin man who drowned in Anson's North Lake Sunday.

"Special thanks of the Anson Fire Department goes to the Stamford Police and Fire Departments and Hamlin Fire Department for bringing drags and assisting in the recovery," Simmons said.

"Due to the quick response the body was recovered in the shortest possible time. Dragging was started within 15 minutes after a rescue effort failed to save the man's life," he said.

Simmons also thanked Anson and area persons, who responded with their boats and along with firemen manned boats and operated drags in the operation. And everyone was grateful to the wives of fireman and to others who carried coffee and food to those engaged in the recovery effort, he said.

The TIE that Binds...

Man and woman began their married life in church and according to God's holy word are joined together. With the Bible as the basis for the beginning of a new life together, it seems only reasonable that a continued study of God's word would strengthen and serve as a guide to any couple. The Bible can truly serve as a tie that will bind two together in accord. The church as God's

agency on earth can help you in Bible study, and with the guidance of the Holy Spirit can help you to understand God's will in your life.

"And the Lord shall guide thee continually, and satisfy thy soul in drought, and make fat thy bones; and thou shalt be like a watered garden, and like a spring of water, whose waters fail not." Isaiah 58-11

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Celebrate your freedom from high prices!

Shurfine

INDEPENDENTS

days

Who is the INDEPENDENT?

How he can save you money at the supermarket!

By H. W. GARRICK
General Manager, Shurfine-Central Corporation, Northlake, Illinois

There is probably no word that has been bandied about more in the last two decades than the word, "independent". It has been used, misused, over-worked and over-insinuated into our shopping vocabulary until it has lost its meaning—if, indeed, it had one in the beginning. Its most often intended inference seemed to be that here was some poor little All-American guy beset by big business on all sides and unable to survive without our sympathetic patronage. No wonder most of us associate the word "independent" with the size of the store.

Funny thing is that in most communities the largest supermarkets are very often the "independents"—supermarkets owned by individuals, families or partnerships operating one or more stores in a relatively small

geographic area. These supermarkets are truly "independent" of the dictates of faraway management and rigid operational policy. Their "independence" is to make their own decisions as to what they will sell, allow, service and products that you in your community prefer. Their "independence" in their decisions as to who will supply them, has allowed many of them to join together in the ownership of their own warehouses, procurement and distribution facilities... producing the lowest cost of food possible at the supermarket. No it is with the 3000 supermarket owners who comprise Shurfine-Central Corporation. Their stores are diverse in name, size and appearance, but they have three common denominators: they are "independent" in the best sense of the word for you, they have Shurfine brand on their shelves, and June 26 to July 4th, they will be celebrating your "freedom from high prices" with their own Shurfine "Independents Days Sale!" Don't miss it!

Is this any way to treat your recreation areas?

Keep your home beautiful—keep America beautiful

You and your family spend a lot of time in America's parks, forests
 and recreation areas. You live there—they're part of your home.
 Why litter your home? Why litter your America? Litter is ugly and
 unhealthy and dangerous. Cleaning it up costs millions in taxes
 you help pay. Every litter bit hurts you.

Litter doesn't throw itself away; litter doesn't just happen. People
 cause it—and only people can prevent it. "People" means you.

Sylvester News...

by Mrs. R. M. Babb

Slowly raining and cool, such a good day to sleep, that is if you haven't anything better to do.

Had a report last night that Mr. Claude Cross had been taken to Callan Hospital about 5 a.m. Sunday morning.

The youngsters reported washing some ten cars last Saturday.

In the W. B. Brown home over the weekend were the Max Deel family of Levelland and the Jerry Prather family of Sweetwater.

Connie and Cynthia Beck have had a very nice summer, they visited Jamie and wife in Athens, Ga., then visited the Hendersons (relatives) in Greenville, N. C., then on to Washington D. C. and took one of the "Afternoon Tours."

They returned to Chicago for a visit with their sister, Sally, and family.

The Taylor Simms and son, John, returned here with them and will visit here and with his parents in Midland for a couple of weeks.

Mrs. Roy Herron is home again from Hamlin Hospital and her mother, Mrs. Tartar is staying this week with her.

Mr. and Mrs. Lea Dickerson had a call last Friday night that their grandson, Randall, son of Mr. and Mrs. Truitt Dickerson of Sweetwater would have to have emergency surgery, they report that he is doing fine since surgery.

Mr. and Mrs. Cliff Early visited with Glendon and James Early families in San Angelo Sunday.

Mrs. Ross Douglas had major surgery last week in Hendrick Memorial Hospital in Abilene.

Mrs. Maggie Wilder's granddaughter, Debbie, of Dallas is visiting her for a few weeks.

Mr. and Mrs. William Stevens and son, Todd, visited with the Hugh Hoods over the weekend. The Stevens live in Ft. Stockton.

I understand that Don Kelly (Joe Boy) is able to walk with a cane now and is slowly improving in every way, it has been a long pull and isn't over yet but we are thankful for the progress made so far.

Mrs. Fred Turner, Mrs. Floyce Campbell of Abilene and Mrs. Faye Cross of Midland all joined their aunts and uncle in San Antonio for a reunion of the Scallorn children. We all remember Grandmother Scallorn when she lived here with her daughter, Mrs. J. C. McHaney and then with Mrs. Mimmie Combest. Mrs. Scallorn has two daughters living in San Antonio. The reunion was at the home of Mrs. Wimer. Also attending was the brother from California and a sister from Florida and Mrs. Combest from Lancaster, Texas.

Mrs. Fred Turner's daughter from Austin joined them in San Antonio. It was the first time the Scallorn children had been together since their mother's death.

Mrs. Bo Newland attended the Church Secretary's Conference sponsored by Baptist Churches this week in Glorieta, N. Mex.

What people are saying about... A CLEAN BREAK WITH THE PAST

"SOLD ON IT!" say the Derwood Langstons of 107 Maple Street, McCamey, Texas.

Mrs. Langston talks about electric cooking. "I love it," she says. Mr. Langston talks about the comfort of electric heating and cooling. "Sold on it," he says. He also talks about the "very reasonable cost of operation." Wouldn't any man? When you can cook, clean, cool, heat, light, do the dishes and the laundry for a family of five (and two of them teenage daughters) at an average cost of only \$26.37

per month, you are talking 'most any man's language!'

The Langstons' inviting frame home has 7 rooms, 2 baths and a sewing room—2,000 square feet. They have electric base-board heating and evaporative cooling. Major electrical appliances include a range, dryer, washer, dishwasher, refrigerator and freezer.

Why don't you join the swing to total electric living and find out what you'll have to say on the subject.

Make a clean break with the past...convenience and comfort are great in Total Electric Living

BRUSH CONTROL — Holly P. Toler inspects brush control on his native pasture eight miles west of Hamlin. Large mesquites have been uprooted with a bulldozer, and a seedbed has been prepared by plowing bare areas.

Pasture has recently been seeded with native grasses by airplane. Toler is a cooperater with the California Creek Soil and Water Conservation District and is participating in the Great Plains Conservation Program.

Oil, Gas Nets County \$11.6 Million

More than \$11.6 million a year of economic stimulation for Jones County flows from its oil and gas wells each year, an annual study by Texas Mid-Continent Oil & Gas Association showed today.

"As one of the 206 producing counties in Texas, Jones County's economy is sensitive to fluctuations in the oil industry generally," commented W. A. Landreth, Fort Worth, Association president.

"Long range, the demand for oil looks strong and current production rates continue to provide Texas a major source of its income. On the other hand, Texas operators are beset by competition from other oil producing areas, government ceilings on natural gas prices, heavy tax payments, and a price for crude oil that is insufficient to encourage the amount of exploratory drilling that is needed to find future reserves."

Based on latest U. S. Bureau of Mines producing figures, Jones County in 1965 produced 3.9 million barrels of crude oil, valued at \$11.4 million and 1.6 billion cubic feet of natural gas valued at \$209,700 and ranks 84th among Texas counties in production.

Agent Warns of Dangers of Empty Pesticide Cans

Empty pesticide containers are like "empty" guns — they can't be trusted, Jones County Agent, Kirby Clayton says they're never empty; they always contain some chemical residue and many times enough to cause a hazard.

The "empty" pesticide container, therefore, becomes more dangerous than the "loaded" container, he adds.

Empty pesticide containers should never be used again, says Clayton, as residues left in the container can cause contamination and possible poisoning.

The agent suggests that all pesticide containers should be disposed of immediately or locked up in a storage cabinet or shed until they can be disposed of properly. All glass or metal containers should be rinsed with water both inside and out and pressurized containers rinsed outside.

The agent cautions all users of pesticides to read the label, follow instructions carefully, keep under locked storage and dispose of waste material properly.

Mex.; Mrs. Bill Taylor, Cynthia and Kevin, Arlington; Mr. and Mrs. Doyle Plemons; Kim and Debra of Abilene; Mr. and Mrs. Gene Adams and Rickie; Mr. and Mrs. Jackie Williams, Mignon, Sonja, and Mickey; Mr. and Mrs. James Putnam, Dale, Mike, and Benny, Roby; Mrs. Lillie Woodson, Mrs. Bama Knight, Mr. and Mrs. J. STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin — Railroad Commission authorized Texas oil industry to produce an additional 2,268,000 barrels of oil during the last two weeks of June in view of curtailed supplies from the unsettled Middle East.

Commission increased the June allowable from 33.8 per cent to 35.9 per cent, retroactive to June 1. This figure will permit maximum oil production of 3,112,191 barrels daily compared to current 2,992,236 barrels. Commission postponed setting an allowable for July, but another moderate increase is almost certain.

State officials, conscious of the Legislature's special tax session looming next year, see a possible revenue windfall (which could reduce the new tax need) from the crisis-caused oil production jump.

With an increase from 10 to 13 days a month in production, there is no telling at this point how much the ultimate increase will be. Before the emergency situation, the oil production tax income for the coming year had been estimated at nearly \$140,000,000.

These factors figure in the magnitude of future allowable increases.

Kuwait, Saudi Arabia, Iraq and Algeria have banned oil shipments to U. S. and Britain. Libya's production has been halted by a strike.

Arabs want to nationalize their oil fields or call in Spain and France to develop their petroleum industry, replacing the U. S. and Britain.

Suez Canal may remain blocked for several months. Thus any oil shipments would have to round the Cape of Good Hope. Trip would be longer and more expensive.

Interstate Oil Compact adopted a resolution calling for a 12.2 per cent limit on the ratio of imported oil to domestic stocks east of the Rocky Mountains. Experts say present situation demonstrates need for better government attitude toward domestic production and industry development.

14 - YEAR - OLDS CAN DRIVE

Fourteen - year-olds who complete driver education before August 28 still can get a license good until its regular expiration date.

Homer Garrison Jr., Director of Texas Department of Public Safety, issued the interpretation following numerous calls about new licensing law amendments.

New law which goes into effect in late August would raise the minimum age for licensing drivers with behind-the-wheel instruction to 16, except in unusual cases. Garrison said, however, he did not interpret the new law as denying "the privilege of driving" to 14-year-olds who already have qualified under existing regulations.

Nancy Ford Lockoff made the Dean's high honor roll during the spring semester at Texas Tech in Lubbock while carrying 19 hours.

ing new fields.

The Association estimated that operators in the county spent more than \$1.9 million in drilling last year, of which \$774,315 was lost in dry holes.

Sharing heavily in the county's production each year is the State Treasury, which received \$540,321 in production taxes in 1965 paid by the producers and royalty owners. Crude oil production paid \$525,642 and natural gas production, \$14,679.
